Participatory Index

Open and Participatory Government Index

Measurement of Open Government and Cooperation
Across the States Institutions

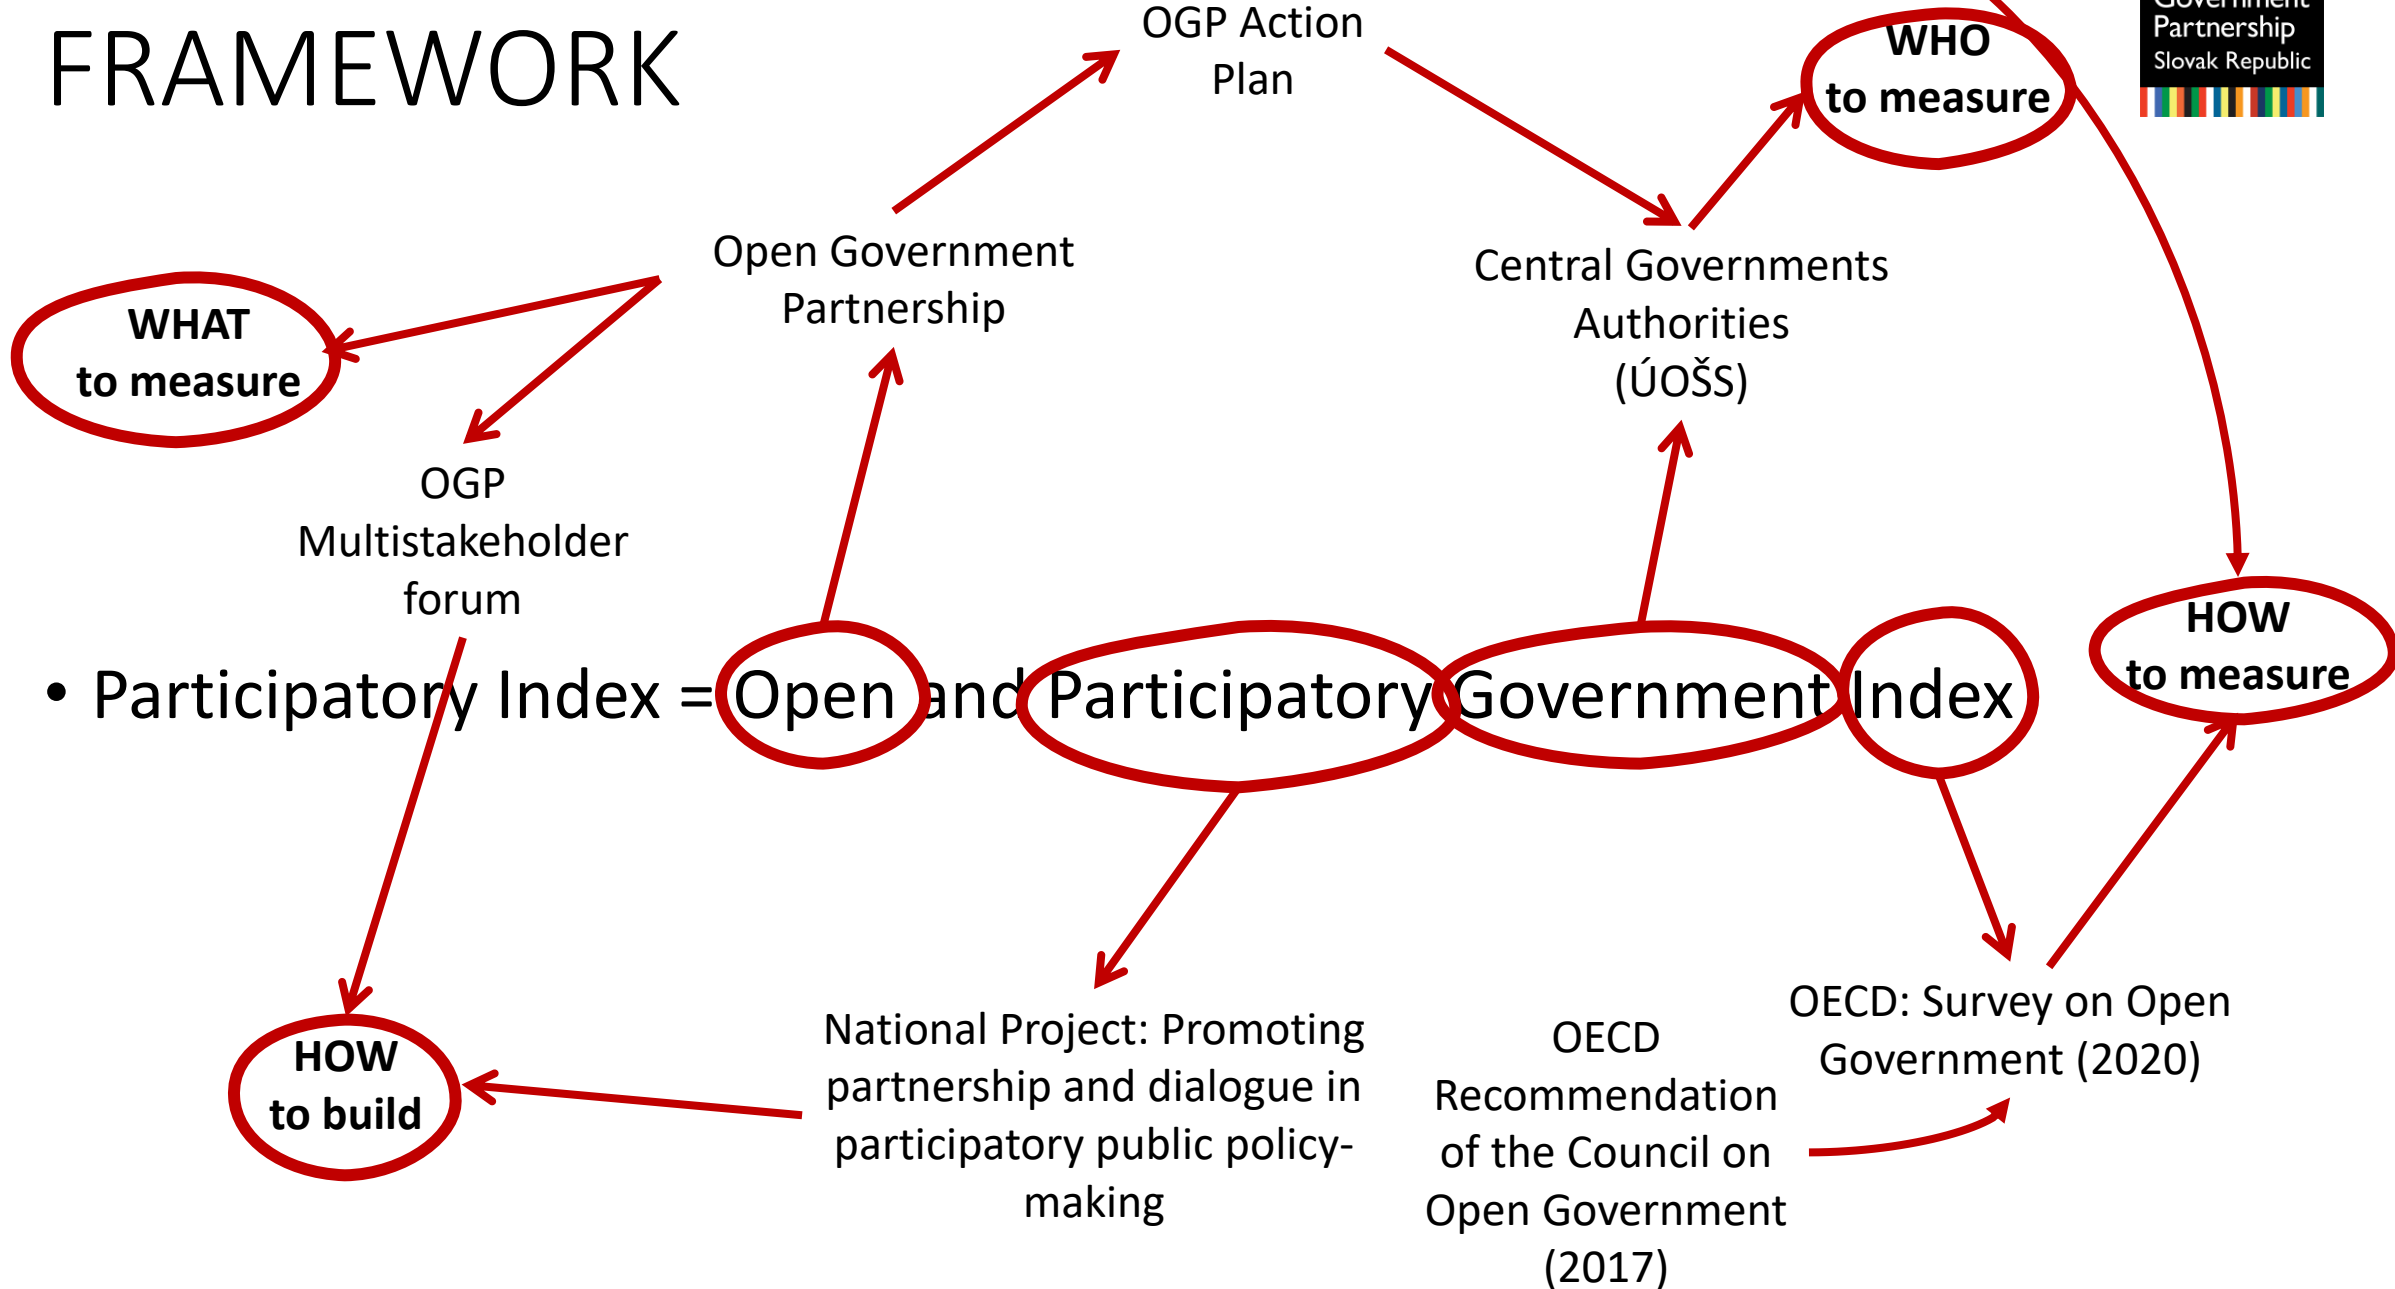

Jakub Adámek (ÚSV ROS)

09.08.2023.

NAME

- Participatory Index = Open and Participatory Government Index

FRAMEWORK

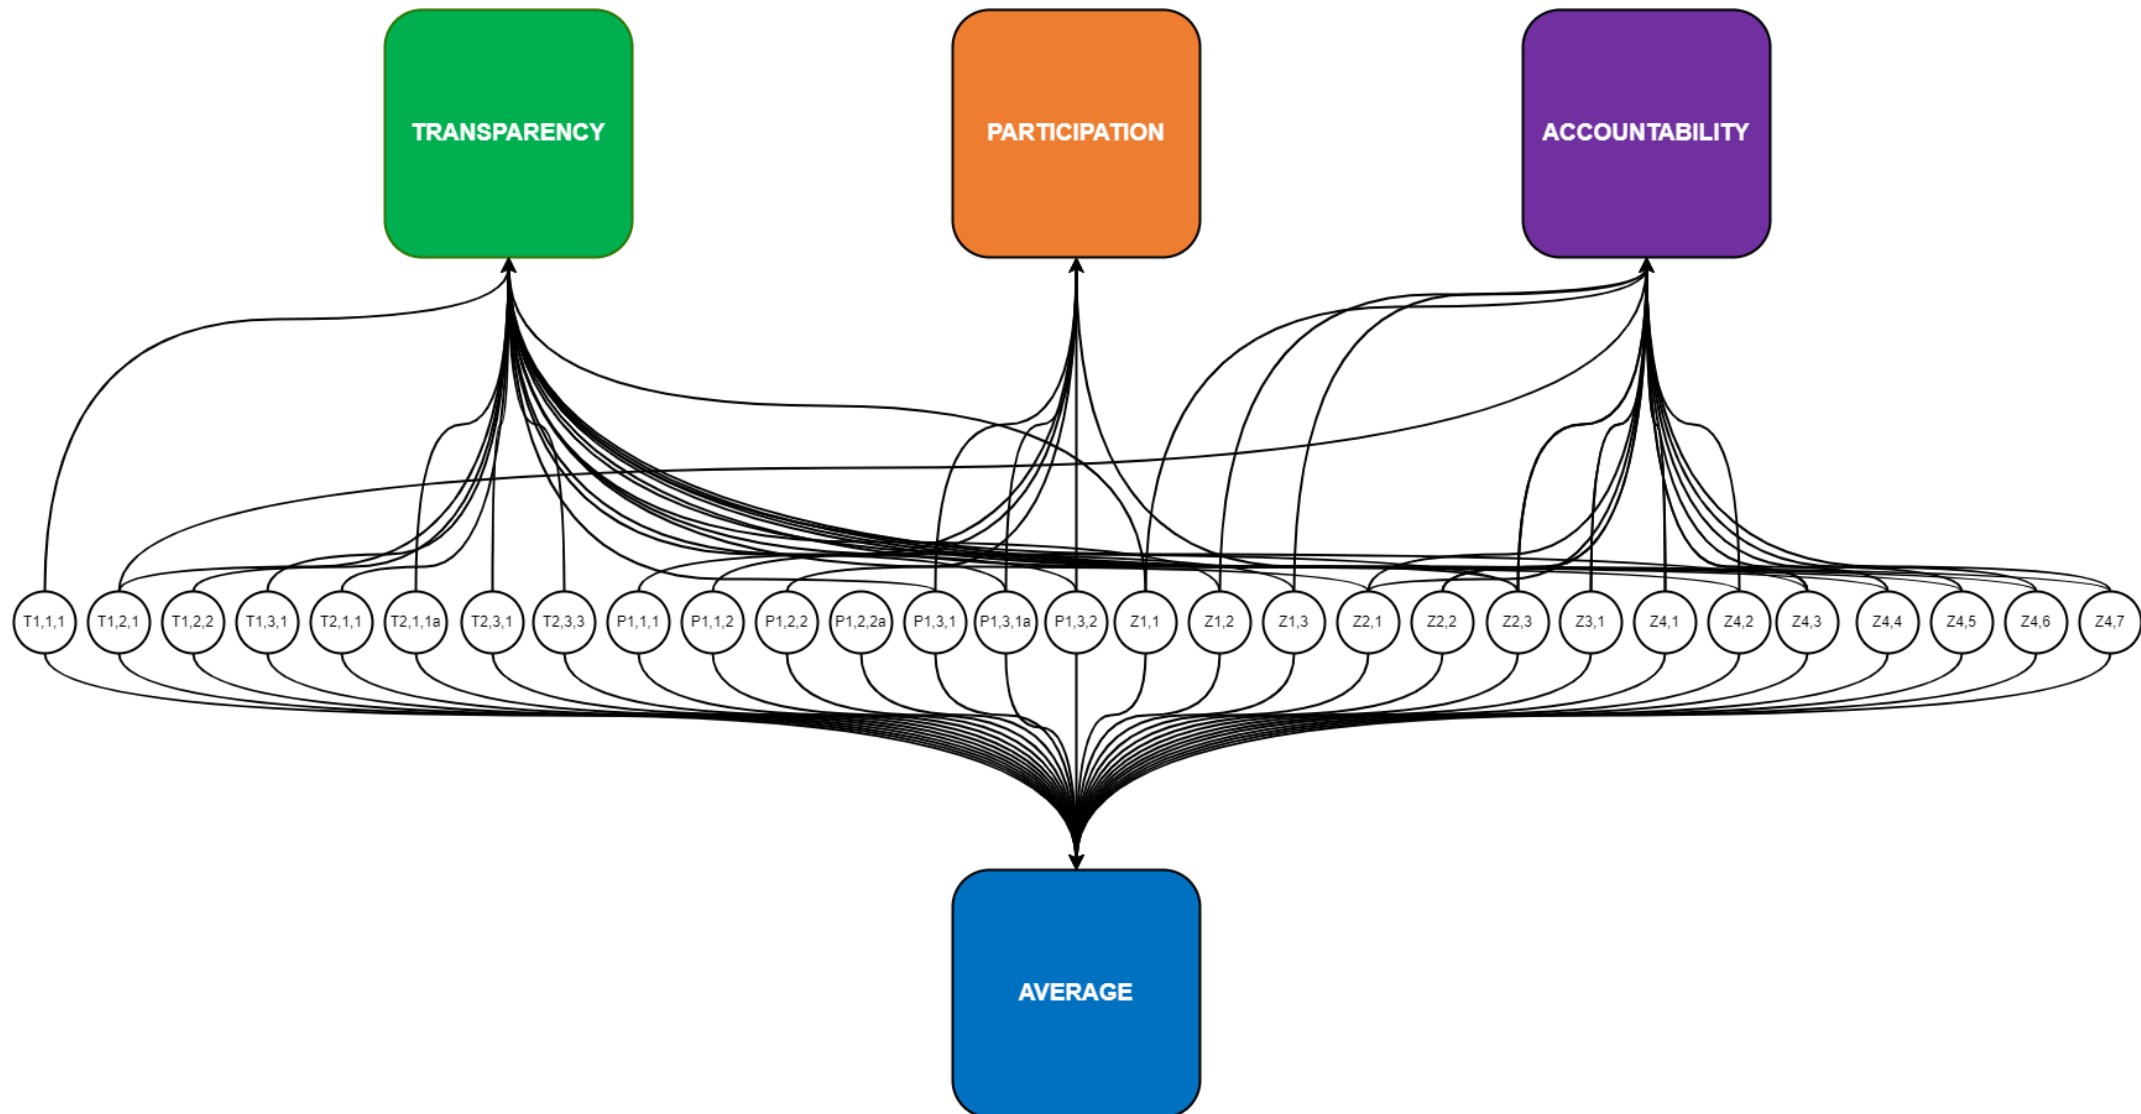

FRAMEWORK: WHAT to measure?

- OGP:
 - *Open Government as a **culture** of governance that promotes **transparency, participation, and accountability***
 - **Transparency**
 - **Participation**
 - **Accountability**

FRAMEWORK: HOW to measure?

- OECD
 - OECD: Survey on Open Government (2020)
 - Need to collect the information on open government across the government
 - Precursor for the indicators
 - Citizen Participation Index
 - Index as a tool for unification and comparison

FRAMEWORK: Indicators

FRAMEWORK: WHO to measure?

- OGP Action Plan
 - Praxis of collaboration across the government's institutions
 - Tool to secure the sustainability
- Need for clear definition of subjects
 - Government – *Act 575/2001 on the organisation of government activities and the organisation of the central state administration.*
 - ~~Central government authorities (24)~~
 - Ministries (14)

FRAMEWORK: HOW to build?

- National Project: Promoting partnership and dialogue in participatory public policymaking
 - Promoting of the participatory design
 - Index as one of the outputs
- OGP Multistakeholder forum
 - Best practice in participation

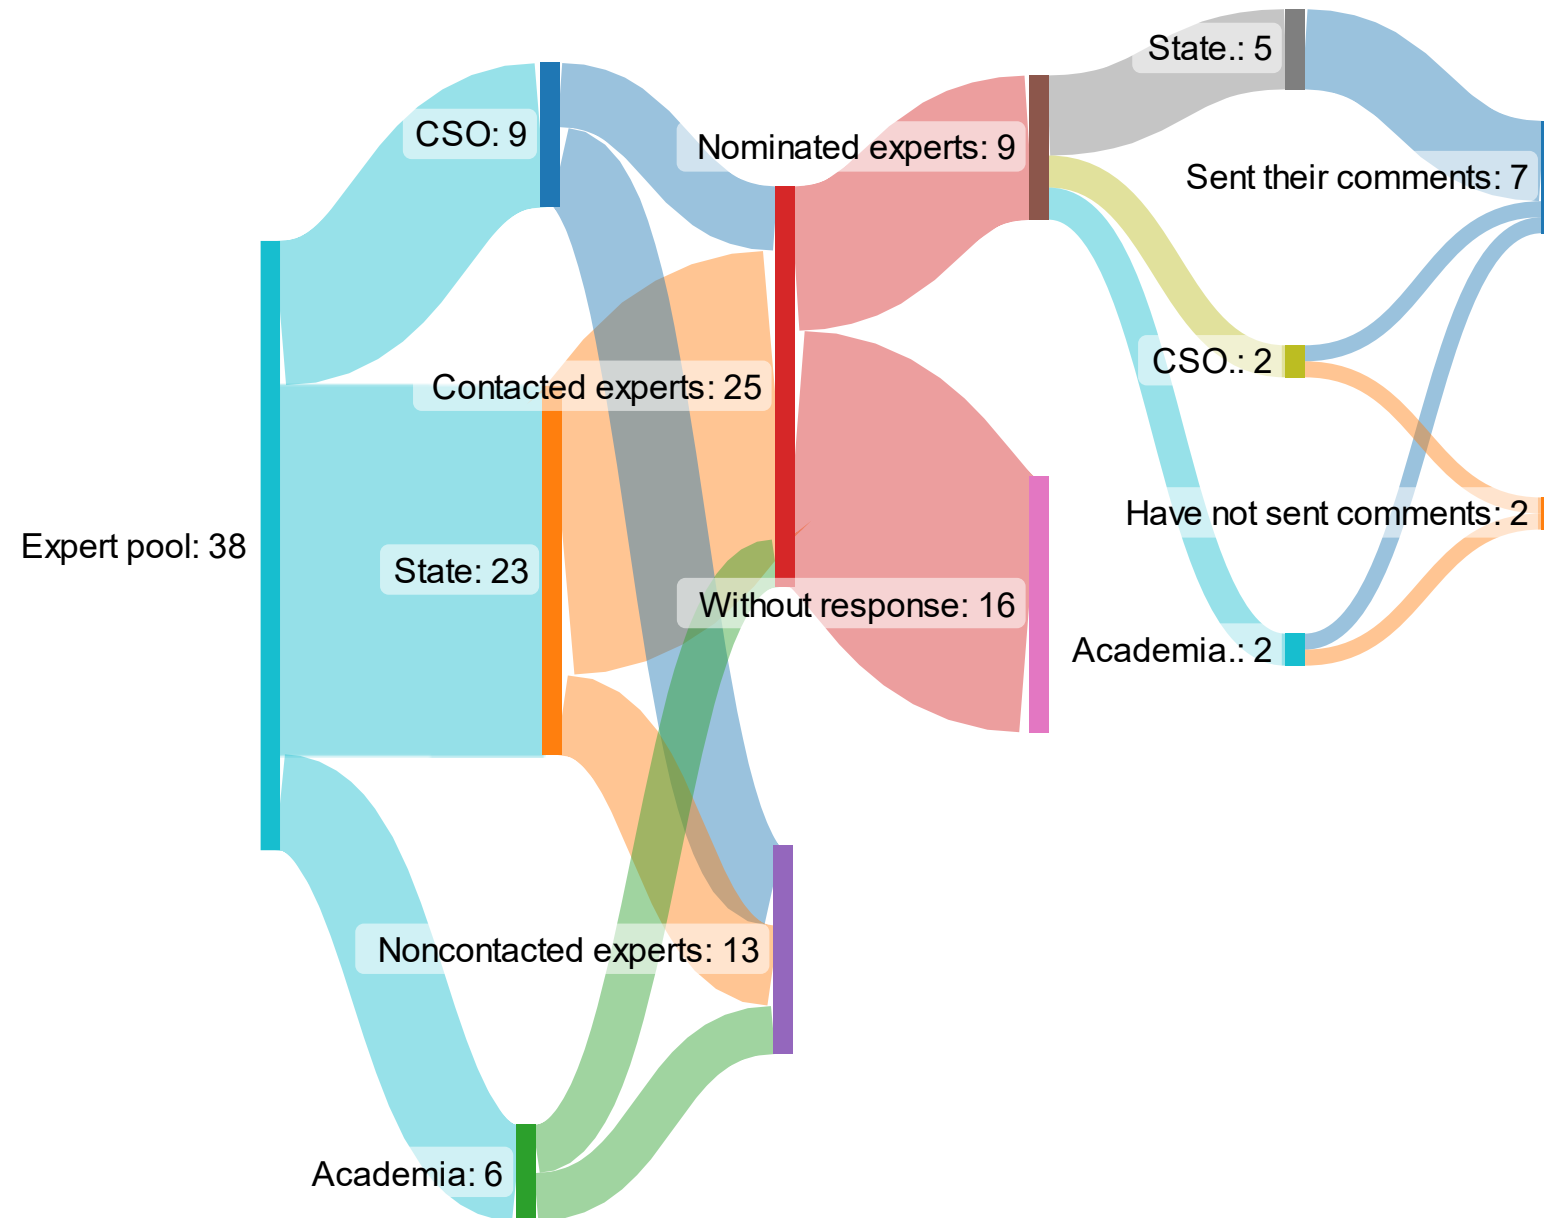

FRAMEWORK: WHAT does it acctually measure?

- ~~Open Government~~
- Infrastructural assumptions/settings for a more open institution
 - Higher score = Easier to build on the Open Government culture

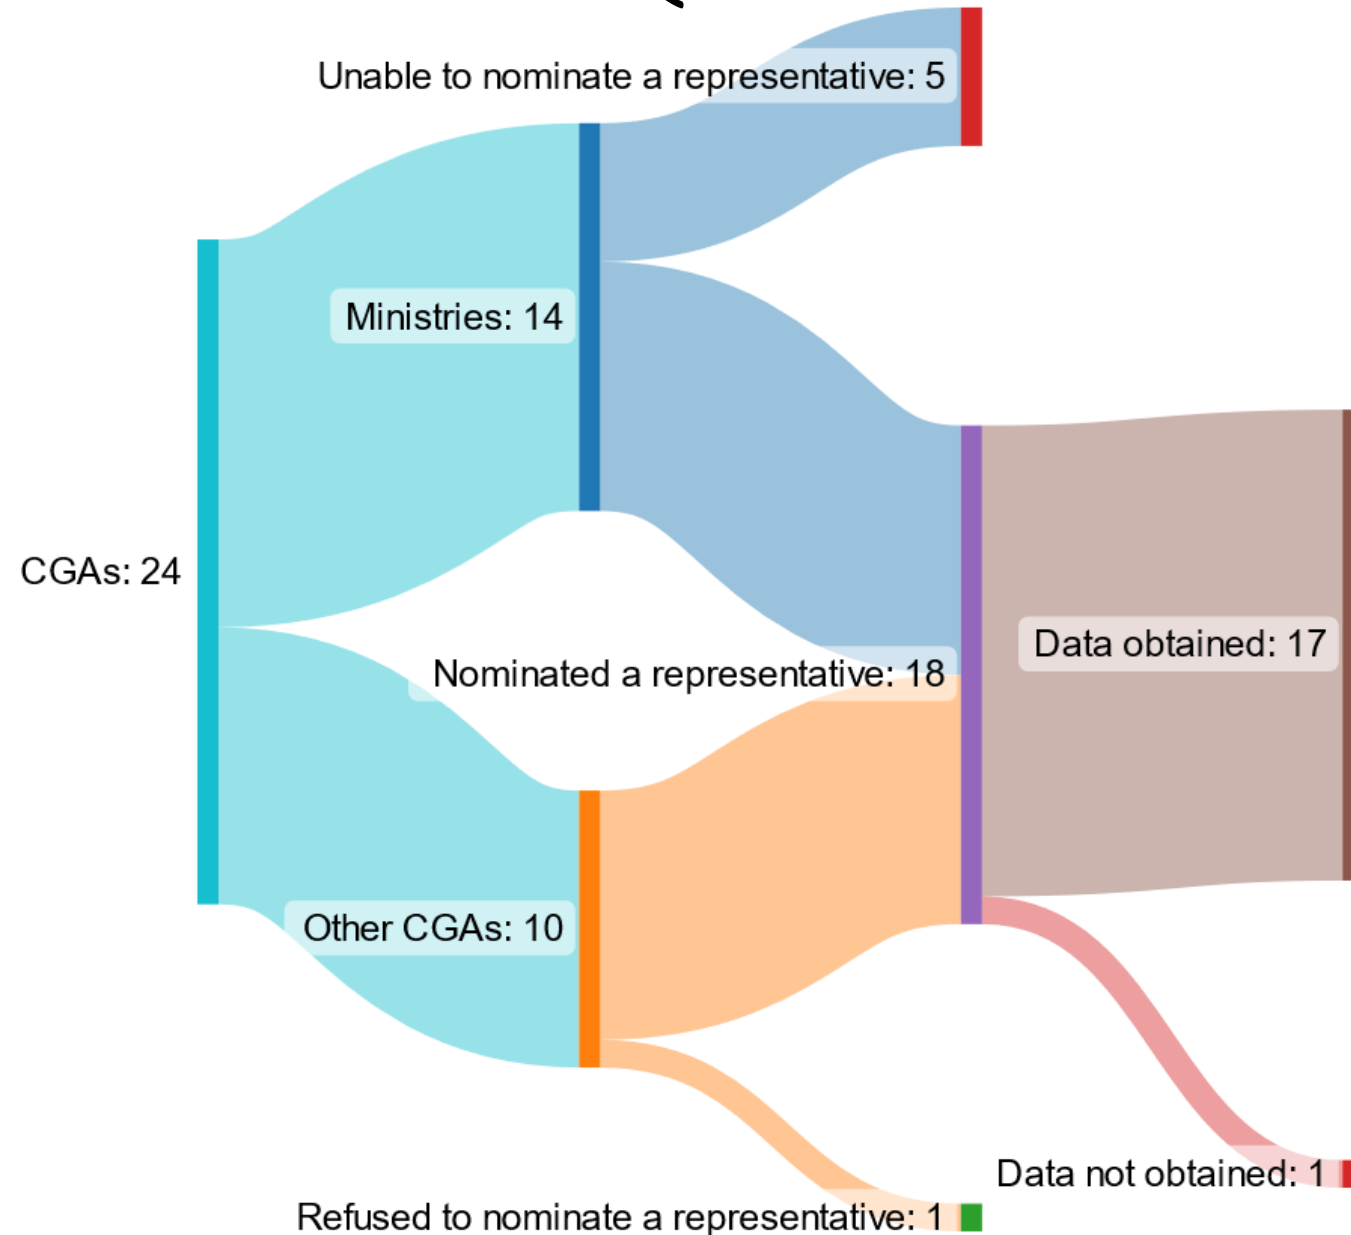

PROCES AND STATUS QUO

- Expert peer-review
- Input data check
- Pilot testing
- Definition of weights
